

SAFETY DATA SHEET

European Car Formula SAE 5W-40 Improved ESP Synthetic Motor Oil

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200 and WHMIS 2015, in compliance with the Hazardous Product Act (HPA, as amended) and the requirements of the Hazardous Product Regulations (HPR).

| 1. Identification | | |
|---|---|--|
| Product identifier | | |
| Product name | European Car Formula SAE 5W-40 Improved ESP Synthetic Motor Oil | |
| Product number | AFL | |
| Recommended use of the chemical and restrictions on use | | |
| Application | Lubricating fluid. | |
| Uses advised against | Avoid the formation of mists. | |
| Details of the supplier of the s | afety data sheet | |
| Supplier | AMSOIL INC. Bordner, Ladner, Gervais Scotia Plaza, 40 King St W Toronto, ON, Canada M5H 3Y4 T: +1 416-367-6547 | |
| Manufacturer | AMSOIL INC. One AMSOIL Center, Superior, WI 54880, USA. T: +1 715-392-7101 compliance@amsoil.com | |
| Emergency telephone numbe | <u>r</u> | |
| Emergency telephone | CHEMTREC: Within USA and Canada: 1-800-424-9300 Outside the USA and Canada: +1 703-741-5970 (collect calls accepted) 24/7 | |
| 2. Hazard(s) identification | | |
| Classification of the substance | e or mixture | |
| OSHA/WHMIS Regulatory Status | This Product is not Hazardous under the OSHA Hazard Communication Standard and according to the hazard criteria of the Hazardous Product Regulations. | |
| Physical hazards | Not Classified | |
| Health hazards | Not Classified | |
| Environmental hazards | Not Classified | |
| Label elements | | |
| Hazard statements | NC Not Classified | |
| Other hazards | | |
| This product does not contain any substances classified as PBT or vPvB. | | |
| 3. Composition/information on ingredients | | |
| Mixturee | | |

Mixtures

| Hydrogenated base oil | 25 - <40% |
|---|--|
| CAS number: 64742-54-7 | |
| Classification Asp. Tox. 1 - H304 | |
| The full text for all hazard state | ements is displayed in Section 16. |
| Composition comments | The exact percentage is withheld as a trade secret in accordance with 29 CFR 1910.1200. |
| 4. First-aid measures | |
| Description of first aid measur | es |
| General information | Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel. |
| Inhalation | Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. |
| Ingestion | Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. |
| Skin Contact | Wash skin thoroughly with soap and water. |
| Eye contact | Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes. |
| Protection of first aiders | First aid personnel should wear appropriate protective equipment during any rescue. |
| Most important symptoms and | effects, both acute and delayed |
| General information | See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | Prolonged inhalation of high concentrations may damage respiratory system. |
| Ingestion | Gastrointestinal symptoms, including upset stomach. Fumes from the stomach contents may be inhaled, resulting in the same symptoms as inhalation. |
| Skin contact | Prolonged contact may cause dryness of the skin. |
| Eye contact | May cause temporary eye irritation. |
| Indication of immediate medic | al attention and special treatment needed |
| Notes for the doctor | Treat symptomatically. |
| Specific treatments | No special treatment required. |
| 5. Fire-fighting measures | |
| Extinguishing media | |
| Suitable extinguishing media | Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire- extinguishing media suitable for the surrounding fire. |
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. |
| Special hazards arising from the | he substance or mixture |

Special hazards arising from the substance or mixture

| Specific hazards | Containers can burst violently or explode when heated, due to excessive pressure build-up. Contains Hydrocarbons. The product is immiscible with water and will spread on the water surface. |
|---|--|
| Hazardous combustion products | Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors. |
| Advice for firefighters | |
| Protective actions during firefighting | Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves, that provides a basic level of protection during chemical incidents is defined by the Canada Occupational Health and Safety Regulations, by provincial guidelines on occupational health and safety or by NFPA standards if applicable. |
| 6. Accidental release measure | S |
| Personal precautions, protecti | ve equipment and emergency procedures |
| Personal precautions | No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Use protective equipment appropriate for surrounding materials. |
| Environmental precautions | |
| Environmental precautions | Avoid discharge to the aquatic environment. |
| Methods and material for cont | ainment and cleaning up |
| Methods for cleaning up | Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Reuse or recycle products wherever possible. Absorb the spillage with an inert, dry material and place it in a suitable waste disposal container. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations. |
| Reference to other sections | For personal protection, see Section 8. For waste disposal, see Section 13. |
| 7. Handling and storage | |
| Precautions for safe handling | |
| Usage precautions | Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Avoid contact with used product. Do not reuse empty containers. |
| Advice on general occupational hygiene | Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace. |
| Conditions for safe storage, in | cluding any incompatibilities |

Storage precautions

| Storage class Chemical storage. Specific end uses(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The identified uses for this product are detailed in Section 1. Specific end use(s) The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits. Under conditions which may generate mists, the following exposure limits are recommended: Long-term exposure limit (8-hour TWA): 5 mg/m³ Short-term exposure limit (15-minute): 10 mg/m³ |
|--|
| Specific end use(s) The identified uses for this product are detailed in Section 1. 8. Exposure Controls/personal protection Control parameters Occupational exposure limits Comments The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits. Under conditions which may generate mists, the following exposure limits are recommended: Long-term exposure limit (8-hour TWA): 5 mg/m³ |

| Long-term exposure limit (8-hour TWA): 5 mg/m ³ |
| |
| Exposure controls |
| Appropriate engineering controlsProvide adequate ventilation. Good general ventilation should be adequate to control worker exposure to airborne contaminants. |
| Eye/face protectionEyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with OSHA 1910.133 and/or the Canadian regulation on health and safety at work, SOR/86-304, Part XII (12.6), and any relevant provincial regulation relating to health and safety at work. The following protection should be worn: Chemical splash goggles. |
| Hand protection Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and/or the Canadian regulation on health and safety at work, SOR/86-304, Part XII (12.9), and be demonstrated to be impervious to the chemical and resist degradation. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. |
| Other skin and bodyAppropriate footwear and additional protective clothing complying with an approved standardprotectionshould be worn if a risk assessment indicates skin contamination is possible. |
| Hygiene measuresProvide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke. |
| Respiratory protectionRespiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn. |
| Environmental exposure Not regarded as dangerous for the environment. controls |
| 9. Physical and Chemical Properties |

Information on basic physical and chemical properties

| Appearance | Liquid. |
|------------|---------|
| Color | Amber. |

| 11. Toxicological information | |
|---|---|
| Hazardous decomposition products | Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors. |
| Materials to avoid | No specific material or group of materials is likely to react with the product to produce a hazardous situation. |
| Conditions to avoid | There are no known conditions that are likely to result in a hazardous situation. |
| Possibility of hazardous reactions | No potentially hazardous reactions known. |
| Stability | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. |
| Reactivity | See the other subsections of this section for further details. |
| 10. Stability and reactivity | |
| Pour point | -40°C [ASTM D 97] |
| Fire point | 240°C Cleveland open cup. [ASTM D 92] |
| Oxidizing properties | Does not meet the criteria for classification as oxidizing. |
| Explosive properties | Not considered to be explosive. |
| /iscosity | 88.5 cSt @ 40°C 14.3 cSt @ 100°C [ASTM D 445] |
| Decomposition Temperature | Not available. |
| Auto-ignition temperature | Not available. |
| Partition coefficient | Not available. |
| Solubility(ies) | Not known. |
| Relative density | 0.8498 |
| /apor density | Not available. |
| /apor pressure | Not available. |
| Upper/lower flammability or explosive limits | Not available. |
| Evaporation rate | Not available. |
| Flash point | 224°C Cleveland open cup. [ASTM D 92] |
| nitial boiling point and range | Not available. |
| Melting point | Not available. |
| рΗ | Not available. |
| | Not available. |

Information on toxicological effects

| - <i></i> . | |
|--|---|
| Toxicological effects | Not regarded as a health hazard under current legislation. |
| Acute toxicity - oral Notes (oral LD₅₀) | Based on available data the classification criteria are not met. |
| Acute toxicity - dermal Notes (dermal LD ₅₀) | Based on available data the classification criteria are not met. |
| Acute toxicity - inhalation Notes (inhalation LC_{50}) | Based on available data the classification criteria are not met. |
| Skin corrosion/irritation Animal data | Based on available data the classification criteria are not met. |
| Serious eye damage/irritation Serious eye damage/irritation | Based on available data the classification criteria are not met. |
| Respiratory sensitization | |
| Respiratory sensitization | Based on available data the classification criteria are not met. |
| Skin sensitization Skin sensitization | Based on available data the classification criteria are not met. |
| Germ cell mutagenicity Genotoxicity - in vitro | Based on available data the classification criteria are not met. |
| Carcinogenicity Carcinogenicity | Based on available data the classification criteria are not met. |
| IARC carcinogenicity | None of the ingredients are listed or exempt. |
| Reproductive toxicity | |
| Reproductive toxicity - fertility | Based on available data the classification criteria are not met. |
| Reproductive toxicity - development | Based on available data the classification criteria are not met. |
| Specific target organ toxicity - | single exposure |
| STOT - single exposure | Not classified as a specific target organ toxicant after a single exposure. |
| Specific target organ toxicity - | repeated exposure |
| STOT - repeated exposure | Not classified as a specific target organ toxicant after repeated exposure. |
| Aspiration hazard Aspiration hazard | Based on available data the classification criteria are not met. |
| General information | No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | Prolonged inhalation of high concentrations may damage respiratory system. |
| Ingestion | Gastrointestinal symptoms, including upset stomach. Fumes from the stomach contents may be inhaled, resulting in the same symptoms as inhalation. |
| Skin Contact | Prolonged contact may cause dryness of the skin. |
| Eye contact | May cause temporary eye irritation. |
| Route of exposure | Ingestion Inhalation Skin and/or eye contact |

| Target Organs | No specific target organs known. |
|---------------|----------------------------------|
| | |

Medical considerations

Skin disorders and allergies.

Toxicological information on ingredients.

Hydrogenated base oil

| Acute toxicity - oral | |
|--|--|
| Notes (oral LD₅₀) | LD₅₀ >5000 mg/kg, Oral, Rat REACH dossier information. |
| Acute toxicity - dermal | |
| Notes (dermal LD₅₀) | LD₅₀ >5000 mg/kg, Dermal, Rabbit REACH dossier information. |
| Acute toxicity - inhalation | |
| Notes (inhalation LC₅₀) | LC₅₀ >5.53 mg/l, Inhalation, Rat REACH dossier information. |
| Skin corrosion/irritation | |
| Animal data | Dose: 0.5ml, 24 hours, Rabbit Erythema/eschar score: No erythema (0). Edema score: No oedema (0). REACH dossier information. |
| Serious eye damage/irritati | ion |
| Serious eye damage/irritation | Dose: 0.1ml, 72 hours, Rabbit REACH dossier information. |
| Skin sensitization | |
| Skin sensitization | Buehler test - Guinea pig: Not sensitizing. REACH dossier information. |
| Germ cell mutagenicity | |
| Genotoxicity - in vitro | Gene mutation: Negative. REACH dossier information. |
| Genotoxicity - in vivo | Chromosome aberration: Negative. REACH dossier information. |
| Reproductive toxicity | |
| Reproductive toxicity - fertility | Screening - NOAEL > 1000 mg/kg/day, Oral, Rat P REACH dossier information. |
| Reproductive toxicity - development | Developmental toxicity: - LOAEL: 125 mg/kg/day, Dermal, Rat REACH dossier information. |
| cal Information | |

Ecotoxicity

Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

Toxicity

Based on available data the classification criteria are not met.

Ecological information on ingredients.

Hydrogenated base oil

| Acute aquatic toxicity | |
|---|---|
| Acute toxicity - fish | LL_{50} , 96 hours: > 100 mg/l, Pimephales promelas (Fat-head Minnow) |
| Acute toxicity - aquatic invertebrates | EL₅₀, 48 hours: > 10000 mg/l, Daphnia magna |
| Acute toxicity - aquatic plants | NOEL, 72 hours: > 100 mg/l, Pseudokirchneriella subcapitata |

Persistence and degradability

Persistence and degradability The degradability of the product is not known.

Ecological information on ingredients.

Hydrogenated base oil **Biodegradation** Water - Degradation 31: 28 days Inherently biodegradable. **Bioaccumulative potential Bio-Accumulative Potential** No data available on bioaccumulation. Partition coefficient Not available. Mobility in soil No data available. Mobility Other adverse effects Other adverse effects None known. 13. Disposal considerations Waste treatment methods General information The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. **Disposal methods** Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority. 14. Transport information General The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT, TDG).

UN Number

Not applicable.

UN proper shipping name

Not applicable.

Transport hazard class(es)

Transport labels

No transport warning sign required.

Packing group

Not applicable.
